Professional Objective

I am an enthusiastic, self-motivated, and responsible individual with a strong work ethic. I thrive in team environments and excel in navigating change and overcoming challenges. My ability to perform under pressure and meet strict deadlines allows me to effectively plan, manage, and execute complex projects. I am seeking a role where I can leverage my skills to contribute to successful project outcomes within a collaborative team setting

Work Experience

- **Luton Hospitals 2022 - 2023**
Administrative Assistance
 - I managed schedules, coordinated meetings, and handled correspondence. I also assisted with data entry, maintained records, and provided support for office tasks.
 - Assisted in the preparation of regularly scheduled reports including the hospital monthly performance reports for presentation to the board.
- **State Department for Devolution 2019**
Administrative Intern
 - Handled incoming and outgoing correspondence effectively.
 - Organized and maintained office records including performance documentations.
 - Developed a report on the County pending bills and presented the report to director in a board meeting.
 - Participated in the drafting of County Governments' Performance Tracking Policy.

Projects

- Built a fully functioning eCommerce application in Django and Flutter as well as REST APIs.
- Built a functioning Personal website in JavaScript and CSS
- Built several blog websites for clients in Upwork.
- Currently working on a eLearning platform for both Android and IOS as well as websites. The platform will provide resources for people to learn various Programming Languages
